SUMMARY

To secure a challenging position in software development, Proven track experience in Data Analysis, MY-SQL and Python, focusing on operational excellence and innovative solutions. Strong analytical and problem-solving abilities. Dedicated to fostering collaboration and achieving measurable results.

EXPERIENCE

Y-HILLS Intern   Mar 2023 - Apr 2023

- worked on the Machine Learning internship.
- using ML libraries like pandas, numpy, sklearn, tensorflow.
- Done the prediction on further Health care, The data which is use to identify the human health problem by ML libraries.

Chatbot Project   Jul 2023 - Sep 2023

- worked on the MEAN Stack and Machine Learning.
- this project works on the group team members.
- mainly use in this project google colab, long chain, hugging face and mean stack.

Data Analysis   Dec 2023 - Jan 2024

- works on the Execl, MY SQL and Python programming.
- Social media data analyses, identifying and reading the unusers accounts and calculate the acquires of social media yearly..

EDUCATION

Bachelor of Technology   2021 - 2025
kakinada institute of Engineering and Technology

- Specialization in computer science
- Thesis on "Artificial Intelligence and Data Science"

intermediate   2019 - 2021
JAGANS junior college

- Maths, Physics, Chemistry

ADDITIONAL INFORMATION

- **Technical Skills:** Python, Data Analysis, Machine Learning, MY SQL.
- **Certifications**: Data Analysis, Salesforces, AICTE, IBM, Machine Learning.,
- **Languages:** English, Telugu.
